

Rail Experience

Commercial Management & Contract Administration

We believe the most effective way of controlling project costs and realising the full entitlement under a contract is the engagement of suitably qualified and experienced contract administration staff.

DGA offers a full range of commercial management services in connection with live projects, including:

- Commercial reporting, both internal and client facing,
- Change management and production of compensation event quotations,
- Subcontract procurement and commercial management through to Final Account,
- Cost and value reconciliations,
- Final account preparation and negotiation.

DGA pride themselves on their staff integrating themselves into our clients’ organisations to seamlessly operate alongside client staff for the best of the project.
